Product description

Product category: Raw materials and aromas

This general product description refers to the general properties of our product group "Basic substances and flavours" of the manufacturer Destilla, Nördlingen. We will gladly provide you with detailed specifications for individual products.

Description

- alcoholic liquid mixtures of fruit juice concentrates, distillates, alcoholic or wine-based flavouring extracts, flavourings and water, if applicable
- Purpose of use: Ingredients for liqueur preparation or flavouring, some of them also dyeing of spirits or wine-based beverages
- Color: colourless or coloured, mostly clear
- Odor: product-typical

Average analysis

- According to the product specification of Destilla, unambiguously assigned by the manufacturer's six-digit art. no.

Explanations

The Products

- comply with the applicable foodstuffs legislation, in particular Regulation (EU) No. 1334/2008 on food flavourings
- contain no genetically modified (micro)organisms or components and are not produced with the help of genetically modified (micro)organisms. Their use in the production of foodstuffs therefore does not require labelling in accordance with Regulation (EEC) 1829 and 1830/2003.
- can possibly contain substances with allergenic effects mentioned in the Food Information Regulation No. 1169/2011, Annex II, please refer to the corresponding individual specification.

The packaging materials used in direct contact with the product comply with the requirements of EU regulations no. 10/2011 and no. 1935/2004 on food products.
