Product specification

Product: Magnesiumoxid E530 („schwer“), Art.-No. 0477

Description

- Magnesium oxide for the treatment of turbidity and slight vinegar sting in alcoholic distillates, drug extracts and spirits
- Appearance: fine white powder
- Odor: neutral

Average analysis

- Content (%): >98
- Solubility: practically insoluble in water and ethanol
- Insoluble in acetic acid (%): <0,1
- Bulk density (g/L): ca. 470

- Annealing loss (%): <2
- Calcium oxide (%): <1,5
- Lead (ppm): <2
- Arsenic (ppm): <3

The product thus complies with the valid legal requirements for food additives according to VO (EU) No. 231/2012 and Ph. Eur.

Explanations

The Product

- is an inorganic substance which, due to its purity, is free of organic and thus genetic material.
- does not contain any genetically modified (micro)organisms or components and is not produced with the help of genetically modified (micro)organisms.
Its use in the production of foodstuffs therefore does not require labelling in accordance with Regulation (EEC) 1829 and 1830/2003.
- does not contain any of the allergenic substances listed in Annex II of the Food Information Regulation No. 1169/2011 with allergenic effects in a concentration requiring labelling.
- does not contain any substances of animal origin or ethanol.

The packaging materials used in direct contact with the product comply with the requirements of EU Regulations 10/2011 and 1935/2004 on food products.
